The Mysore Representative Assembly, June 1925

RESOLUTIONS ON THE BUDGET

Mover.—Mr. Hosakoppa Krishna Rao.

1. With a view to augment the resources of the half-starved nation building departments and to avoid resorting to further taxation therefor, this Assembly strongly urges on the Government the necessity for effecting drastic retrenchments in the various administrative departments, specially at the top.

2. This Assembly recommends to Government that reductions are desirable and ought to be made in the travelling allowances of all officers drawing a monthly salary of Rs. 250 and above.

3. This Assembly recommends to Government that with a view to afford adequate relief to the raiyats affected by floods or droughts or both, the present policy of granting remission of assessment on lands may be considerably revised so as to render the remissions of substantial benefit.

4. This Assembly recommends to Government a more liberal allotment than has been provided for, for carrying out village improvement works, sinking of wells to provide drinking water in villages, and for carrying out water-supply works and other improvements in town areas.

5. This Assembly recommends further and larger allotments for speedy restoration of minor tanks in the State.

6. This Assembly urges on the Government the immediate necessity of undertaking the construction of the Kadur-Chickmagalur Railway line and that necessary funds be provided in the coming year's Budget so as to commence work early.

7. With a view to relieve the hard lot of non-gazetted officers on monthly salaries of Rs. 100 and below and assuage the discontent among that hard-working and indispensable class of officials, this Assembly strongly recommends that provision may be made in the coming year's budget for suitable improvements in their pay and allowances.

8. This Assembly urges on the Government the immediate necessity of providing separate quarters for the accommodation of Legislative Council members at Bangalore during the sessions of the Council and recommends the provision of necessary funds therefor in the coming year's budget so that construction may be completed by the close of the next official year.

9. This Assembly recommends to Government that the Shimoga Collegiate High School be raised to the status of a second grade College with facilities for First Year B.A. Course, if not in natural sciences requiring apparatus and laboratories, at least in mathematics and history and that necessary funds be provided therefor.

10. That with a view to effect early repairs to all dilapidated buildings of the Muzrai Institutions such as those at Hariharapura and Kalsa, this Assembly recommends to Government, the provision of necessary funds therefor in the coming year's budget.

11. This Assembly recommends to Government the necessity for provision of larger funds than have been provided for the Medical Department so as to enable it to supply all necessary medicines and instruments to all dispensaries in the State.

12. In view of the inadequacy of funds for extension of primary education in the State and the unwillingness and inability of the people to pay extra cess therefor, this Assembly recommends that the entire proceeds of the Income-tax may be earmarked exclusively for the spread of primary education.

13. In view of the acute distress frequently caused to the people by floods and droughts and the lack of any adequate funds to meet such distress effectively, this Assembly recommends to Government that the rules and regulations dealing with expenditure of famine reserve funds may be so altered as to provide a definite percentage of the amount in reserve being made available for flood and drought relief works.

Mover.—Mr. B. Ramakrishnaiya.

14. This Assembly recommends to Government that adequate provision be made for the renovation and restoration of temples and monuments of architectural and historic importance in the State.

15. This Assembly recommends that a fairly adequate provision be made for unforeseen expenditure such as floods, droughts, etc.

16. This Assembly recommends that increased provision be made for medical and sanitation aid.

Mover.—Mr. H. N. Raghavendra Rao.

17. The provision made for supply of medicines to Local Fund Dispensaries in taluks is not sufficient. The number of patients and the number of diseases to be treated are increasing. The grant for medicines may, therefore, be increased by 50 per cent

18. The grant allowed for improvement of towns and Minor Municipalities for next year is less than the normal annual allotment in the previous years and it may therefore be increased. The improvement of Minor Municipalities is as important as that of City Municipalities. Hunsur is a place of historic importance and accordingly an annual grant of Rs. 5,000 may be allowed to it for a period of five years.

19. The grants allowed in the next year's budget for village improvements and for drinking water wells in villages are inadequate. For these two purposes an annual grant of not less than Rs 1 lakh is necessary and may be arranged to be provided for. Instructions may also be issued to Deputy Commissioners to see that no lapses on grants allowed for these two objects occur.

Mover.—Mr. D. S. Mallappa.

20. This Assembly is of opinion that the transfer of the item of charges *Veda* and *Prayoga Patasala* from the head of Education to the head of Muzrai Institutions is against general principle and recommends that it should be in the control of the Education Department as before.

21. This Assembly is of opinion that the principle and policy governing the expenditure on Muzrai Institutions are not sound and recommends retrenchments in expenditure.

22. This Assembly is of opinion that the principle and policy governing the levy of income-tax are not sound and recommends retrenchment in expenditure.

23. This Assembly is of opinion that the principle and policy of having large establishments in the various departments of the General Administration are not sound and recommends retrenchment in expenditure.

Mover.—Mr. Niligiri G. Sanjeeviah.

24. The Budget allotment to the Mysore University be omitted.

Movers.—Messrs. Mahomed Abbas Khan, G. Paramasiviah and Niligiri G. Sanjeeviah.

25. That adequate provision be made in the Budget for 1925-26 for the opening of at least four veterinary dispensaries in the rural areas.

26. That adequate provision be made in the Budget for 1925-26 for the purchase of serum to combat the dire disease of rinderpest which is said to have broken out in as many as 200 places in the Districts of Shimoga and Chitaldrug.

27. That the question of starting a saw mill in the Ghat forests of Tirthahalli to cut timber into sizes for sale to the public be investigated and if found profitable be undertaken, necessary funds being made available during the year 1925-26.

28. That a more liberal allotment than heretofore be made for opening new dispensaries in the rural areas.

29. That no provision need be made in the State Budget for the maintenance charges of the Vani Vilas Water Works in Mysore out of the general revenues.

30. That no provision be made for the re-organisation of Ayurvedic College, Mysore, until the demand for opening more dispensaries and veterinary institutions in the rural areas is adequately satisfied.

31. That the allotment for awarding scholarships to students of backward communities be substantially increased in the Budget for 1925-26 in accordance with the resolution adopted last year by the Assembly by utilising necessary funds from departmental balances and reserves.

32. That the details regarding the number and value of scholarships awarded by the Department of Industries and Commerce be furnished in the Budget so as to render it possible to know the policy governing their distribution.

33. That a more liberal provision than heretofore be made for giving grants to private hostel buildings.

34. That the Government Order directing the discontinuance of duty allowances attached to certain offices on change of present incumbents be now given effect to by transferring such officers wherever necessary in order to effect savings in the sums allotted for the purpose.

35. That the following changes be effected in the system of charges levied by the Electrical Department:—

(*a*) That the rate charged for electric power used for private houses be reduced by 25 per cent;

(*b*) that the rent for meter be done away with;

(*c*) that the rate fixed for street lights within the Municipal areas of Mysore and Bangalore Cities be reduced by 25 per cent.

36. That more funds than heretofore be provided and energetic steps taken for the restoration of minor tanks.

The Deputy Commissioner Kadur has submitted with his --- letter No.H.C.159/25-26 dated 6/7th July 1926 an estimate for -- Rs.4990/- (copy of letter enclosed) for restoring the damaged -- portion of the Matt building prepared by the Public Works Department and has requested sanction for the same, the cost being met as follows.

Rs.1500/-	from the institution funds.
Rs.3500/-	From a loan to be paid from Government which will be repaid in annual -- instalments of Rs.500/- each.
Total.Rs. 5000/-	

The Swamigalu has made a request in his Srimukha dated 22-8-23 for the grant of free timber required for renovating the building. The present estimate submitted by the Deputy Commissioner provides for Rs.528/- being the cost of 132 cft. of Jungle wood work calculated at 4 Rs. per cft. and Rs.745/- for establishment, tools and plant charges at 17½% which is

is 7% higher than what is actually permissible as per Standing -- Orders. By deducting this excess charge the estimate reduces ---- itself to Rs.4430/- excluding the cost of timber as against Rs.4990/- (vide -- details in the margin).

Rs.528/-	savings in the cost of jungle wood if the timber is granted free as requested by the --- Swamigalu.
Rs.300/-	being the difference in Establishment tools and plant charges - between 17½ calimed & 10½% to be actually charged.
Rs.828	Total savings.
Less Rs.264	Cost of labour, carting sawing etc. of wood
Rs. 564	say Rs.560
Rs.4990-0-0

This is an old matt which deserves help and the restoration of the matt building is a useful work of permanance, I beg to recommend that Government may be pleased to sanction the free grant of 132 cft. of timber as requested by the Swamigalu and a loan of --- Rs.3000/- repayable in annual instalments of Rs.500/- each. The Deputy Commissioner will be instructed to retrench expenditure in the Matt on establishment etc., so as to provide for the regular repayment of the loan.

On receipt of Government orders, the estimate will be sent to the Chief Engineer for transmission to Government after needful scrutiny.

I solicit the favour of early orders since the building is reported to be in urgent need of repairs.

The Sub Division officer reported that the Swamigalu was absent from the Matt on circuit and that the place of his camp is not known.

3. But a communication was received on 29-6-1926 from the Swamigalu expressing keen disappointment at the state of the Matt building and its affairs and proposing to effect retrenchment in certain items of expenditure and to take steps for the improvement of the building -- early. I have asked the Sub Division Officer, Tarikere, to examine the affairs of the Matt in detail and submit a revised scale of ---- expenditure so as to reserve sufficient funds for the up-keep of the building and on receipt of his proposals, I shall submit the same for necessary sanction.

4. As the amount at the credit of the Matt is Rs.1910-3-10 on 1st April 1926 and as the repairs of the Matt building are to be urgently attended to, I request that you will be so good as to obtain sanction of Government for a sum of Rs.3500/- every year. Sanction of -- Government to the Estimate may also be kindly obtained. The ----- remaining sum viz., Rs.1500/- will be met out of the funds avalable at the credit of the Matt.

5. The arrears due to the Matt will be fully recovered and --- credited as early as practicable."

Repairs to the Sri Hariharpur Mutt building, Kopla Taluk.

SIR,

In continuation of this office D.O.letter No.2143 dated the 23rd May 1928, I have the honor to forward herewith, for orders, a fresh estimate amounting to Rs.7,480/- for the above work, received from the Superintending Engineer, Shimoga Circle, together with the tracing plan and report.

2. The estimate is in order and has been countersigned by the Deputy Commissioner, Kadur District. The Superintending Engineer has reported that he inspected the building in April last and that the work now proposed is necessary.

3. The file (with the original estimate) received with your letter No.741/Muz.92-25 dated the 9th November 1927, is herewith returned.

I have the honour to be,

SIR,

Your Most obedient servant,

J. Bhore 31.7.28

Chief Engineer of Mysore.

MM/31st.

Report to accompany the estimate of the probable cost of restor-ing the Hariharpur mutt in Koppa Taluk.

Amount of estimate Rs.7,440/-.

The estimate has been prepared to restore the mutt building which is in a much neglected and dilapidated condition. In the year 1924 an estimate for Rs.2,379/- was got prepared and forwarded to the Deputy Commissioner for countersignature and obtaining needful sanction thereto But on account of further damages caused to the building just after the forwardal of the estimate to the Deputy Commissioner, he returned the same to this office with a request that it may be suitably revised - after including supervision, tools and plant charges. Accordingly an estimate amounting to Rs.4,990/- was prepared and sent to the Deputy Commissioner who countersigned and submitted it to the Huzrai Commission-er for sanction. The latter officer returned the estimate stating - that the loan of Rs.3,000/- asked for, cannot be sanctioned until the particulars regarding the revision of the scale of income and expendi-ture are received and the institution is found capable to repay the loan if sanctioned.

Due to some reason or other the sanction of the estimate is - being delayed and the condition of the building is getting from bad to worse every year. Any further delay to the sanction will cause the complete collapse of the building thereby necessitating an enormous amount to be spent for its reconstruction.

The present estimate is prepared according to the existing - requirements and the same may be sanctioned early. Provision has been made in the estimate to dismantle the fallen portion of the structure with its roofing and to have latrite brick walls which do not allow the rats etc., to undermine them as in the case of mud walls. Mangalore tiled roofing is provided for, in place of the country pot tiles which are completely damaged. Establishment and tools and plant charges are also inlcuded in the estimate. The rates are usual to the locality.

Since ~~this estimate~~ it will take some time before Teashmate is sanctioned and as the building is in need of very urgent repairs, another small estimate amounting to Rs.483/- has been sanctioned and the work will be shortly put in hand. This estimate provides for some minor repairs just

just enough to keep the building from collapsing till estimate is sanctioned.

The Muzrai Commissioner in Mysore.

To

B. Srinivasa Iyengar, Esq., B.A., B.L.,
Secretary to the Government of His
Highness the Maharaja of Mysore,
Finance Department.

SIR,

With reference to your letter No.369 Mis.28-4 dated 10th August 1928 requesting to be informed of the source from which the sum of Rs.7480/- for renovating the Sri Mariamma Matt No. 1 Road, is to be met, I have the honor to state as follows:- The [illegible] estimate scrutinized by the Chief Engineer is for Rs.7480 - exclusive of a sum of Rs.707/- for establishment charges. The Financial condition of the matt does not permit the levy of these charges - these charges are omitted the estimate comes to Rs.6773/-. The institution had a closing balance of Rs.3160-14-7 at the end of June 1928 out of which a sum of Rs.3100/- can be made available towards the cost of the estimate and the balance of Rs.3600/- will have to be paid as a loan from the general Muzrai fund of the Government.

I recommend therefore that the establishment charges included in the estimate may be allowed to be collected as a special charge and the estimate sanctioned for Rs.6773/- to be met as follows:-

Rs.3173/- from the funds of the institution
Rs.3600/- Loan from the general Muzrai fund of the Government.

The loan from the general Muzrai fund of the Government bears interest and may be made repayable in annual instalments of Rs.600/- each

are

I have recently inspected this Matt and believe the

A copy of the Deputy Commissioner's letter dated 16th ..a

I have the honor to be,

Sir,

Your most obedient servant,

Mysore Commissioner.

Letter No.A.5.302-26 dated 10th May 1926 from the Deputy Commissioner, Kadur District to the Mudral Commissioner at Mysore.

With reference to your No.C.352/25-26 dated 20th May 1927 calling for revised proposals in respect of the scale relating to the Nemmekere Matt in connection with the sanction to the estimate for Rs.4,000/- for renovating the said Matt buildings, I have the honor to invite reference to your order No.R.Dis.38/27-28 dated 17th October 1927, wherein the revised scale of income and expenditure of the Institution has been sanctioned.

2. The Executive Engineer has sent an estimate for Rs.7,440/- revising the estimate of Rs.4,990/- which was submitted to you with this office No.H.C.159/25-26 dated 7th July 1926, and the same has returned duly countersigned for getting an approval to the estimate, as the buildings are reported to be in a dangerous condition. Copy of Executive Engineer's No.305 dated 3-5-1928 and the report are herein enclosed for your information.

3. An estimate for Rs.465/- for immediate repairs of the Matt buildings has been sanctioned by me and sent to the Executive Engineer for execution during the current year.

4. It is reported by the Amildar, Koppa, that a sum of Rs.2925/- is available at the credit of the Matt at the end of December 1927. Further, a recommendation for a sum of Rs.3,500/- being granted as a loan to the Matt has also been made in this office No.H.C.159/25-26 dated 7th July 1926.

5. As the work has to be taken up early, I would propose that a sum of Rs.(7440 -2925) = 4515/- may be treated as a loan to the Matt ---- repayable in equal instalments of Rs.500/- per year, free of interest. This amount could be easily made available out of Rs.645/- shown as reserve in the sanctioned scale.

6. I would therefore request that necessary sanction may kindly be ~~xxx~~ obtained. A copy of the Tarikere Sub Division Officer's letter No.S.1.1932-27 dated 1-5-1928, regarding the urgency for repairing the Matt buildings is also enclosed herein for information.
